Allowable Subject Matter

Claims 1-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The cited prior art does not fairly suggest the claimed invention of prediction analysis having the function of presenting a suggestion to change prediction result into a desired result when predicting unknown data based on accumulated known data. Specifically, claims 1, 19 and 20 are directed to predicting a result value corresponding to one or more attribute values of unknown data and analyzing information indicating that how one attribute value of unknown data is to be amended to change a result value. Therefore, the claimed invention improves the desired results for unknown data and values with prediction and analysis by learning with a structured neural network and produces information for a satisfactory effect.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
